Fort Wayne Sentinel.

SATURDAY, AUGUST 2, 1856.

Gov. J. A. Wright
Will speak at Albion, at Congressional District Convention, on Thursday, August 14, 1856. Lagrange, Friday, Aug. 15th, at 1 o'clock. Linn, Friday, same evening, at 7 o'clock. Cass, Saturday, 16th, at 2 o'clock. South Bend, Monday, 18th, at 1 o'clock.

Wayne Township Democratic Club.—A meeting of the club will be held at the club-room, a hall, this evening at 8 o'clock. Speeches will be made by Messrs J. Brackenridge, W. W. Carson, A. J. Little, and others. A general attendance is requested. Democrats who have not yet joined the club are invited to attend and enroll their names.

The executive committee held a meeting on Friday evening last, and appointed the following sub-committees:

Committee on Finance, to collect and disburse funds, audit accounts, &c.—J. D. Wenden, J. Strout, O. W. Pratt, F. Nirdlinger.

Committee on Documents, to procure and circulate documents—A. H. Carter, C. Piepenbrink, M. Cody, R. E. Fleming, P. Randall.

Committee on Correspondence, to act in conjunction with the Corresponding Secretary—S. Edsall, I. Chittenden, A. Tolson, P. J. Wise.

Committee on Invitations, to invite and provide speakers—F. D. Lasselle, S. C. Freeman, L. Welke, B. Walters, E. Bostick.

Committee on Banners, Music and Processions, to attend every thing pertaining to public meetings, processions, &c.—M. Link, J. Hardendoff, C. Netterhorst, Charles Baker, H. Niernann, J. Foellinger.

The Allen Co. Dem. Convention is in session at Albion, and we write the delegates are pouring in from the country. There are several places to fill, and of course plenty of candidates. We hope the convention will act prudently and judiciously in making their selections, and nominate more but good, reliable, and competent men—democrats who have always stood up faithfully to the principles and usages of the party. The convention owes this to the party it represents, to the people, and to the country. It is a duty which it cannot evade, and which it will not shirk.

Wayne Township Democratic Meeting.—The democracy of Wayne Township are all alive to the importance of the coming election, and intend to give a larger majority than they ever did before. At the meeting held last Saturday, delegates to the county convention were elected, and which plainly shows the interest felt. The following delegates were appointed: W. Rockhill, F. D. Lasselle, J. Logan, J. Carey, R. Nirdlinger, H. Hedekin, Charles Baker, P. Kier, Nirdlinger, C. Piepenbrink, W. Fleming, P. J. Gee, W. Lintlaw, J. Strout, H. Baker, E. Nordermark, T. Dignan, J. Foellinger, M. Cody, Niernann.

Grand Democratic Rally at Huntington.—The democracy of Huntington intend having a grand demonstration on Saturday next, August 3. Hon. John Pettit of Lafayette, (the old man piece) David H. Colerick, of Fort Wayne, and other eminent speakers will be present. An invitation has been extended to the Democratic Club at this place to participate in the proceedings. Who will go? Let us have a good turnout, and show our democratic brethren in Huntington that we sympathize with them.

Come at Last.—After an unusually protracted drought, we have at length been blessed with a refreshing rain. On Monday night we had a falling rain for several hours, which will prove inestimable value to the corn, potatoes, and other crops which are suffering severely. It is estimated that five or six inches of water fell during the night.

Good News from New York.

Union of the Shells!

The Harle and Sells, of the Empire State, assembled in separate convention at Syracuse on Wednesday. We have only received the first day's proceedings, but they are of the most cheering nature. After organizing, the two conventions united and proceeded to business. Judge Amos L. Parker was nominated for Governor on the 3d ballot, and the nomination unanimously confirmed by acclamation. The utmost harmony and good feeling prevailed, and we have reason to hope the hatchet is finally buried by both factions, and they will hereafter be known as democrats. We now count upon New York as certain for Buchanan by a majority of thousands.

The way it is done.—Mr. Vanderbilt had one of his new Steamers at Washington last week, and invited both branches of Congress to a free ride, and free blow-out. On Saturday last, which was of course accepted. On Monday a bill was introduced in the Senate proposing to give Mr. Vanderbilt a contract for carrying the mails monthly from New York to Southampton, giving him \$16,680 per trip—the government to have the privilege of changing the service to suit monthly.

If Fremont should be elected President, we should hear of a great many similar little jobs. He was put in nomination for this express purpose.

Railroad Voting.—The fusionists have a happy faculty of electing their candidates, in advance, by taking votes on railroad cars, steamboats, &c.—but unfortunately their voters generally came up missing at the regular polls. Like Fremont, they are "never at the right place at the right time." As an offset to the many Fremont votes lately pilfered, we give two actual bona fide votes taken on our railroads. They were furnished by persons present when the votes were taken, and may be relied upon as indications of public feeling in this region.

Vote taken on the cars from Forest to Fort Wayne, July 30th, 1856:

Buchanan	29
Fremont	19
Fillmore	2

Vote taken on the Washburn Valley Road between Fort Wayne and Huntington, 25th July, 1856:

Buchanan	37
Fremont	2
Fillmore	1

The one put down for Fremont afterwards explained that he thought he should vote for him, but had not fully made up his mind.

Anti-Republican Sentiments of the Fusionists.

The Boston Journal, a zealous advocate for the elevation of Fremont to the head of the Government, comes out as follows in favor of Monarchy:

"We are decidedly of opinion that monarchy and hereditary monarchy, is by far the best form of human government that human wisdom has yet devised for the administration of civil affairs, and that it will always continue to be the most perfect which human virtue will admit of."

This is a pretty fair and open avowal of feudalism in its worst phase, and may perhaps serve as a key to explain the efforts of the abolition party in the eastern states to dissolve the Union. They wish to found a monarchy on its ruins. To carry out this scheme they are eagerly fanning the embers of discontent, and drawing many honest and unsuspicious but uninformed and unthinking men to aid in their nefarious and treasonable designs.

And even in the West men may be found debased enough to re-echo such anti-republican sentiments. According to the DeKalb Co. Democrat we have among us a candidate on the Fusion State Ticket who is not far behind his eastern brother in political turpitude. The Democrat says:

John W. Dawson's Sentiment.—At a speech recently given by him in the city of Allen, Co. J. W. Dawson, candidate for Secretary of State, said, in substance, "I would rather be under the domination of Queen Victoria, and allow her to rule over me, than live under the rule of the Democratic party, who are now strong for power."

This is the sentiment of every leader of Abolitionism in the State, and is the opinion of the honest voter under well before they conclude to vote for men of such sentiments.

A Near Scintilla Exposed.—Some fellow signing himself Perin M. Brown Jr. has issued a circular from Washington City directed to the postmasters in the United States, setting forth that it has been decided, after a "private consultation of the leading democrats of the Union, immediately after the adjournment of the Cincinnati Convention," to assess each postmaster in the country for the purpose of securing the success of the democratic ticket, stating the amount required, &c., and closing with the request that "the name of some reliable leading democrat in your town" be forwarded with a view of consulting him hereafter.

This ingenious scheme to raise the wind was nipped in the bud by being brought under the notice of the postmaster general, who ascertained that no such man was known in Washington, and gave directions to have the person arrested, and to send him to the penitentiary. Mr. Perin M. Brown smelt the rat, and has not ventured to call for the letters.

We notice some of the fusion papers, although aware the whole affair was a swindle, have copied the circular, and gravely comment upon it as a proof of the efforts making by office holders to control the elections! They have a great facility for discovering man's nests, and this is one of the best they have found for some time.

A Whopper!—A monstrous lie is going the round of the fusion press, originating, we believe, with the State Journal, to the effect that Gov. Willard gives it up, and stated to Gov. Wright that the Black Republicans would carry the State by 20,000 majority! It is scarcely necessary to contradict so ridiculous a fabrication; but the lie is Gov. Willard commenced the campaign with the conviction that the democratic would carry the State by an overwhelming majority, and all he has witnessed during the canvass strengthens the conviction. The democrats stand firm, and the old whigs are flocking by scores to our standard. Indiana probably will give 20,000 majority—but it will be for the National Democratic party—the party of the Union and Constitution—and not for the phibid Black Republicans, who, for the sake of office, are willing to endanger the Union, and whose whole platform consist of one plank—to elevate the negro above the free white naturalized citizen.

WILSON SHANNON has been removed from his post as Governor of Kansas, and John W. Geary of Pennsylvania appointed in his place. He is represented to be an energetic, determined man, and admirably fitted to discharge the duties of the station in the present crisis of affairs in that territory. We are pleased at the change, and trust it may operate beneficially in restoring peace and order in Kansas. We have always considered that much of the trouble there was caused by the inefficiency of Gov. Shannon—or at least, that the difficulties would not have reached such a magnitude if he had taken a more bold, decided course.

Messrs. Brooks and Keitt of South Carolina, who resigned their seats in Congress in consequence of the action of the House in the summer affair, have both been unanimously re-elected by their constituents.

New Drug Store.—Dr. J. U. Winslow is opening a full stock of Drugs, Medicines, Paints, Oils, &c., at Wells Buildings, No. 61 Columbia Street, also a choice lot of Family Groceries, and genuine Wines and Liquors for Medical purposes. The stock is all fresh and genuine, and will be sold at the most reasonable rates. Give him a call, and we hazard the prediction you will be satisfied as well with the articles as the politeness and attention with which you will be waited on. He also gives advice and prescriptions without extra charge.

Buchanan Song Book.—G. W. Cotton, of the State Sentinel, has in press a Buchanan Song Book for the present campaign, containing many new songs by one of the best female poets in the West. Clubs and the trade will be supplied on the most liberal terms.

Send us a copy, friend Cotton.

Perry Township Democratic Meeting.—The Democrats of Perry Township met at the school House in Huntertown, in said township, on the 26th July, and organized by calling ELI HARRON to the chair, and JOSEPH HUNTER, Sec. On motion the following were chosen delegates to the county convention: P. HORN, J. HUNTER, T. M. ANDREWS, Wm. CARROLL.

On motion, the following were chosen contingents: ELI HUNTER, Wm. T. HUNTER, P. FOGEL, M. SAYLOR.

On motion it is requested that the proceedings of this meeting be published in the Fort Wayne Sentinel.

On motion the meeting adjourned.

Grand Rally at Decatur.

Mr. Editor:—The faithful democracy of Adams County, who have never faltered, are wide awake as usual. On Wednesday last Governor Willard addressed an audience of five hundred at Decatur, composed of a union of old line democrats and Clay whigs. The greatest enthusiasm prevailed. The Governor made one of his happy efforts which chained his audience for the space of two hours and a half, and demonstrated in the clearest and most forcible manner the correctness of both State and national Democratic policy. The Clay whigs of Adams county are with us, preferring an alliance with the national democratic party to one with the abolitionists or know-nothings, whose principles were as abhorrent to the old whig party as they have ever been to the democracy. Adams is right, and we may depend upon a majority of from three to four hundred. Root Whigs behaved nobly, and contributed at least one hundred and fifty to the assembly.

ST. JOHNS, N. B. July 10.

The Legislature rejected the Prohibitory Liquor Law by a vote of 38 against 2, and revised the License Law.

There will soon not be a vestige left of this Maine Law fanaticism. It has been tried in the balance and found wanting, and has been repealed or fallen into disuse in almost every state that enacted it. In Indiana, and even in Fort Wayne, since it has been demonstrated that no more votes are to be made by it, the most rampant prohibitionists have not a word to say in its favor. They are as still on this question as they are on the kindred one of know nothingism, and would like to persuade the people that they never supported either.

The Know Nothings alias Black Republicans are holding their secret lodge meetings in this city. There can be no doubt of this. And yet these same nigger loving, foreign-baiting politicians are loud and bawling in their professions of love for the naturalized citizens. They meet at midnight in a Know Nothing lodge to plot treason against the Constitution and to devise the disfranchisement of the foreign born citizen while in daylight they profess the warmest friendship for the foreigner, and pretend the greatest love for the Union.

The climax of political villainy and the lowest depths of political infamy have been reached by the Black Republican Abolitionists of Indianapolis.—State Sent.

They do not venture to hold their dark lantern meetings in this city; but we learn from good authority that the councils in some of the out-townships have been re-organized and now in full blast striving to deprive every citizen of foreign birth of his rights and privileges, and degrade him below the niggers. To elevate the nigger and degrade the foreign white citizen appears to be the great end and aim of the Fremont know nothing black republican party; and they are actually seeking to inveigle the very men they aim to injure into the support of their nefarious designs. Can it be possible any of that class of citizens can be so lost to all sense of mankind, pride, and self-respect, as to become the supple instruments of their oppressors? We trust not.

The Initial Question.—The newspapers being somewhat exercised on the initiality (if I may coin a word) of the approaching Presidential contest, I beg that they will wait patiently till November, when the mystery will be made plain and they will be fully initiated. For example, the friends of the "double B" ticket (Buchanan and Breckinridge) on asking information as to the merits of the whole, as the light shines the result from various portions of the country, will discover that their chances are "Better and Better." The "double F" men (Fremont and Fillmore) will find that their votes have been "Fell and Far between." And the friends of the "double D" (Dayton and Donaldson) will receive the melancholy intelligence that their candidates are "Dying and Dying."—Rich. Eng.

The double B ticket is "Bound to Beat;" the double F men are "Furiously Fanatic," and will be "Famously Flogged;" while the double D's will be "Dandily Defeated."

Maine Law in Iowa.—A bill was introduced in the Iowa Legislature now in session, to repeal the law prohibiting the sale and manufacture of liquor in that State. It passed the Senate by a strict party vote, Democrats all for and Fremont men against it. It was defeated in the House by a party vote, the Republicans all voting against it.

Arrival of the India.

The steamship India, which left Liverpool on Wednesday morning at 11 o'clock, arrived at Quebec at 11 o'clock Sunday morning.

In the House of Commons Lord John Russell made his accustomed long and tedious inquiry, and demanded to be informed what steps the British Government proposed to adopt in reference to the suggestion of the Congress at Paris respecting the affairs in Italy. Palmerston replied that it was not expedient to make known the intention of the Government. Mr. Disraeli and others spoke on the subject, when the motion was negatived.

The Government of Honduras has prepared a memorial to the European Powers, inviting them to guarantee the right of transit from the Atlantic to the Pacific.

The Duke of Cambridge has been appointed Commander-in-Chief of the Army and Lord Palmerston decorated with the vacant garter.

An interesting circular, emanating from the political world of this moment in Paris, and the journals only reflect on the general government.

General Pelissier was expected to arrive at Marseilles between the 15th and 25th inst. A banquet will be given.

Breadstuffs generally a shade higher. The American circular reports an advance of 6 pence per barrel on flour with fair business. Wheat 2 pence per bushel higher, and in good demand. Corn in active speculative demand at 1 advance.

Three ballot boxes were then procured, one for each road, and the voting commenced.

A conspiracy has been detected at Puebla to restore Santa Anna. Many priests were implicated.

Arrival of the India.

The steamship India, which left Liverpool on Wednesday morning at 11 o'clock, arrived at Quebec at 11 o'clock Sunday morning.

In the House of Commons Lord John Russell made his accustomed long and tedious inquiry, and demanded to be informed what steps the British Government proposed to adopt in reference to the suggestion of the Congress at Paris respecting the affairs in Italy. Palmerston replied that it was not expedient to make known the intention of the Government. Mr. Disraeli and others spoke on the subject, when the motion was negatived.

The Government of Honduras has prepared a memorial to the European Powers, inviting them to guarantee the right of transit from the Atlantic to the Pacific.

The Duke of Cambridge has been appointed Commander-in-Chief of the Army and Lord Palmerston decorated with the vacant garter.

will dare hope that he can buy up Mr. Cullen, of Delaware, or that he can buy up the American majority of any southern State to support him. It is certain, then, as those who cannot be elected, but must die to hope, and leave Mr. Fillmore as his executor de bonis non.

We left Mr. Fillmore with perhaps five votes. Mr. Buchanan with at least ten votes; the one wanting six, the other eleven votes. In getting these eleven votes from the republicans, the abolition effects of the election are already shown. From Buffalo would inevitably follow Delaware, Kentucky and Missouri, and untold Tennessee and Texas—thus giving Mr. Buchanan five of the requisite six votes. Mr. Fillmore would then have to get fourteen instead of eleven States from the vote of Mr. Fremont; and this, since his late Albany speech, he could hardly hope to accomplish.

Even were all the eighty-one know-nothing republicans, in fifth column of Table II, to favor him in this contingency, he could not yet be elected; for it will be seen that they cannot control the republican votes of Vermont and Wisconsin.

But Mr. Buchanan now has fifteen States, and though he may be unable to get the sixteenth, and though Mr. Fillmore should get all the strength of Fremont, still the latter is not elected, for Iowa is hopelessly tied.

Thus we see that not even the House can elect, unless, indeed, we suppose that either Illinois or Missouri, or both, will be given, by the special election, to Mr. Buchanan.

Then, both the college and the House fail to elect what are we to do?

The twelfth amendment to the constitution directs that in such case, the Vice-President shall act as President.

But if the college fail to elect a President, is it not fair to presume they will also fail to elect a Vice President?

This failure also occurring, the Senate, by virtue of the said twelfth amendment, will then be called on to elect a Vice President from the two candidates having the greatest number of votes for that office in the electoral college; and Mr. Breckinridge will be their choice.

Thus we see that, fix it as we may, the democracy are bound to have the next Presidency.

Civil War in Beaver Islands—The Mormons Drive Out—Suffering and Destruction.—On Friday several fishing snags, filled with men attached to the teeth, came to Beaver Islands and took possession of it. The invaders numbered some seventy or eighty, and were headed by a man named Newton and the sheriff of Mackinac county. After arresting most of the principal men among the Mormons, the families were all ordered to leave the island forthwith, and were only permitted to take their luggage and household goods, their cattle, horses, &c., being retained by the invaders. Some of the cattle were killed, and others carried off by the mob. About one hundred of the unfortunate settlers came to this city yesterday on the Buckeye State, fifteen families were sent to Detroit on the propeller Prairie State, and Strang with a few followers escaped to Berlin, Wisconsin. One of the party who arrived in this city informs us that some twelve families were left on the island, and that the invaders stated these should be sent off on the next boat landed, and they have doubtless gone there.

Newton, the leader of the mob, stated to a passenger on the Buckeye State, that he had hired the invaders for the purpose of driving out the Mormons, and that he had been paid for his services. He justified his conduct on the ground that the Mormons had stolen from him and his neighbors—that all he had were not guilty, yet the rules and laws of the tribe made it the duty, and it was the practice, to shield the guilty ones, and that any attempt to enforce the law against a Mormon by an outsider would be a violation of the tribe's laws. There has been a great deal of trouble and ill-feeling existing between the Mormons and those opposed to their faith for several years past, and it has been anticipated for some time that an appeal to arms would be had.—Those who have been driven from their homes are utterly desolate. Their church has been burned, crops destroyed, and thousands of homeless wanderers. Those here are without means of any kind, and are entirely dependent upon charity for support.—Chicago Tribune.

Fremont a slaveholder.—Senator Hamilton, in a recent speech at a black republican meeting, remarked as follows:

"When embarking on a western tour, he [Fremont] was asked if it was not his intention to purchase a slave, as a domestic for his wife. His reply was, 'I never owned one dollar in human flesh, and while reason holds its sway in my brain I never will. I love my wife with the most ardent affection, but that who must toil with her own hands, rather than own the first dollar in human flesh!'"

The Springfield (Mass) Argus says it is a pity to spoil this fine story and pretty (Buncombe) speech; but the fact is that Col. Fremont actually owned slaves, and also operated to the advantage of man from their homes on the day of rest. The Society for promoting the Due observance of the Lord's Day, therefore purposes to purchase an unlimited quantity of druggist, to lay down on Sundays over the carpet of the meadows, the hills, and daisies, and as much black grape as may be needed to make the vine for the trees, and other beautiful things. They say that if the horse chestnut trees in Bushy park were thus veiled on Sunday, it would prevent much of the desecration of that day which they now cause by being out in bloom.

A Graduated Scale of Husbands.—Two days ago, writes the Paris correspondent of Le Nord, died at Versailles, in complete obscurity, a personage who has a name in history, Count de Bombelles, who, after Napoleon I. and the Count de Neipperg, was the third husband of Marie Louise.

"How rapidly they build houses now!" said Tom to an old acquaintance, as he pointed to a two-story house. "They commenced that building only last week and they are already putting in lights." "Yes," rejoined his friend, "and next week they will put in the liver."

POETRY.

Song for the Campaign.

DEDICATED TO THE DEMOCRATIC BLUE CLUB.

TUNE—"The March of the Blues."

Chorus: Oh, ye Democrats, who have achieved a story,
Sing our country's gallant deeds, our national pride and glory.

There's a "Blue Club" of the "Kegonsa State," and Black
of "Old Kentucky."

With whom we'll "mash" the foe, and beat them, for
we're lucky.

March for Pennsylvania's son,
March for Old Kentucky.

At Cincinnati it was washed, a National Convention,
The glorious act which it performed is needless now to mention.

To the great people of the States, the friends of law and order,
To them a lesson we would teach, in simple homely language.

March for Pennsylvania's son,
March for Old Kentucky.

From North to South, from East to West, 'Tis ready for the
battle.

And in Northern camp, my boys, we'll make the thunder
roll.

And make the Black Republican standard, and state it
loud.

March for Pennsylvania's son,
March for Old Kentucky.

The Union is one, and the Union we delight in
to watch the traitors' fate, less than that of the great
nation.

At Cincinnati it was washed, a National Convention,
The glorious act which it performed is needless now to mention.

To the great people of the States, the friends of law and order,
To them a lesson we would teach, in simple homely language.

Good Medicines

It is estimated that Ayer's Cherry Pile Cure and Cathartic Pills have done more than supply the public health, than any other medicine. These pills are so potent that the Cherry Pile Cure has by its thousand thousand cures of Glands, Gonorrhea, Asthma, Croup, Sore Throat, Bronchitis, &c., very much to reduce the proportion of deaths from consumptive diseases in this country. The Pills are as good as the Pectoral and will cure most complaining.

Everybody needs more or less purging. Purge the blood first in importance, purge the bowels, Liver and the whole circulatory system. Then the lungs. Purge out the disease which lingers on the lungs, to work its decay. If it far decays we should die early; fold age. Take medicines early and drive it from the system, before it gets too strong to yield. As the Pills are so well known, not only what is said here is true, but also what is said elsewhere. The following statement of those who have been cured by them from dreadful Croup, Dropsy, Ulcers, Stomach Disorders, Rheumatism, Gout, Dyspepsia, Indigestion, Bilious Complaint, Headache, Hoarseness, &c., and many less dangerous but not unimportant ailments, speaks plainly on the face, of their power to remove all kinds of morbid humors. No more to dwell on the merit of C. F. Frost, Dispensary, and indeed every variety of complaint for which a Purgative Remedy is required.

There are no random statements, but are authenticated by your own neighbors and your own physicians.

Try three times, and you will recover by without them. Price 25 cents per Box—50 Cts. per gr. doz.
